

Contract No: **101110642-VETRINE-ERASMUS**

Title: **Vocational Education & Training towards re-inventing apparel procedures**

Duration: **01/09/2023-31/08/2026**

**Abstract:**

This Erasmus+ project seeks to diminish the environmental impact of apparel production through specifically developed vocational education and training modules. VETRINE provides awareness of the negative environmental footprint of the fashion industry alongside learning modules that will consider the entire production cycle including material choices, design and sewing, energy consumption, distribution and post-consumer habits such as repair and recycling. The project will bring together HEIs, VET schools and labour markets organizations aiming to establish flow of information and cultivate the ground towards implementation of green practices into the apparel industry.

CHIMAR acts as one of the market-linked organisations participating in VETRINE, helping to implement green practices and lower the environmental impact.

**Co-funded by  
the European Union**

Co-Funded by the Erasmus+ Programme of the European Union under grant agreement 101110642.
